

Bexar Appraisal District News Release

SAN ANTONIO, Texas – November 15, 2023

New Property Search in BETA Phase

The Bexar Appraisal District will be releasing a revamped property search function on its website.

The Bexar Appraisal District is revamping the property search feature on its website, www.bcad.org, and is asking property owners to test its functionality while in its beta phase. The general appearance of the feature has been updated; however, its primary features should remain the same.

The current property search platform will remain available until the beta phase is complete and is accessible through the Online Services tab at www.bcad.org.
